CRS Charter

The California Rally Series (CRS) is an “association” as opposed to a “profit” based organization, formed by the event organizers and the officers of the series. The CRS has three major goals:

1. Support event organizers.
2. Provide championships that give meaningful year-end awards for local competitors.
3. Promote the sport of Performance Rallying.

The role of supporting event organizers includes loaning organizers funds to pay up front expenses, as well as providing clocks, sign boards, radios and other equipment for organizers to use.

The role of providing meaningful championships has focused on the CRS Rally, Rallysprint and Rallycross Championships. In addition, this role has resulted in the formation of popular competitor-driven rally classes like Performance Stock.

The role of promoting the sport has resulted in the addition of “how to get involved” materials in the front of the rule book as well as on the CRS website. CRS has also been active in promoting rallying at various car shows and other events, in recognizing volunteers, and in supporting rally schools.

CRS BOG

The CRS is governed by a Board of Governors (BOG) which consists of the organizer from each CRS event (Rallies, Rallysprints and Rallycrosses). Membership on the BOG will begin once the event has been accepted onto the CRS calendar and continue for the remainder of the year the event occurs in. In addition to the organizers there will be several other members including: the Director, Equipment Manager, Secretary/Treasurer, Membership Officer, Competitor Liaison, Class Compliance Officer (CCO), Rallycross Liaison, Press Liaison, Sponsor Liaison and Webmaster. The responsibilities of the officers are detailed in Appendix J of these rules.

BOG Operation:

The BOG shall make decisions on Calendar approval, amendments to these rules, amounts of fees, and any other items deemed appropriate by the Director. The BOG shall also be responsible for appointing people to fill the jobs of Equipment Manager, Secretary/Treasurer, Press Liaison, Membership Officer and Class Compliance Officer, Rallycross Liaison, Webmaster and Sponsor Liaison. The BOG will also serve as an informal forum for the organizers to discuss items related to the organization of rallies. For the details of BOG operation see Appendix J of these rules.

Event Requirements and Support

Rally Event Eligibility:

There will be certain minimum requirements which must be met if an event is to be considered for inclusion into the CRS Rally Championship. These requirements have been established to develop credibility in the eyes of the competitors, and thereby promote rallying in general (and the CRS specifically). An event will be considered a “new rally” if it has a new organizer and new stage roads or has not been run for two or more years. A “new rally” will only be allowed to count as either one single points event or one double points event in the CRS Rally Championship for that weekend. To be considered for inclusion in the championship as a triple points event or multiple events the rally must first have been executed successfully. Rally organizers will be limited to no more than three CRS rallies per weekend with a total of no more than six coefficients. Review of existing events is covered in Appendix J.

When establishing the rally calendar one objective will be to have at least three empty weekends between CRS Rally events. Having only two empty weekends between CRS Rally events will only be allowed with the approval of all the events involved. There will not be any additions to the CRS Rally calendar after Jan 1. Any changes to the schedule published in this book must be approved by the CRS BOG.

CRS Event Class Trophies / Awards:

CRS Rally events are encouraged to recognize the top CRS competitors (both driver and co-driver).

Organizer Support:

The CRS will loan any CRS organizer the funds required to pay the sanction and insurance fees. This loan is to be repaid to the treasurer prior to the event. The CRS maintains the following equipment and materials for use by event organizers free of charge: clocks (freezable Timewise clocks plus large start display clocks), rallycross timing system, family radios, sign boards, worker vests, clipboards, two EZ-Ups, and a portable public address system. Rally organizers will be allowed one pre-event mass emailing to current CRS members. The email can be sent by the Secretary. The CRS will rent equipment to non-CRS organizers for 10% of the replacement cost of the particular item. Any free use of CRS equipment at non-CRS events will need approval by the CRS BOG. Equipment that uses batteries will be supplied for rental with good batteries installed.

CRS Membership

Competitor Membership:

All competitors who wish to receive CRS championship points are required to be members, which costs \$30 per calendar year. CRS membership includes the membership card, CRS rulebook, two CRS decals, inclusion in the CRS championships (Rally, Rallysprint and Rallycross), and emails from the various events. The rest of the membership fee goes to year-end awards, and maintaining the supply of equipment used to support those who organize events. There will be a three month overlap allowed for people joining between Sep 27 and Dec. 31. For example, joining CRS on Sep 27, 2018 will buy a membership effective until Dec. 31, 2019 (1 year & 3 months); while joining on Sept. 26, 2018 will buy a membership effective until Dec. 31, 2018 (3 months).

Competitors will begin accruing CRS championship points only after paying their annual membership fee. To be eligible to accrue points at a given event, you must have paid your membership fee prior to the start of competition.

Associate Membership:

The associate membership has been created for workers and other interested people who want to keep up on rally activities or support the CRS, but will not be competing. Associate members receive all of the benefits described above (decals and emails) but they are not eligible to compete in CRS events for championship points.. The fee for joining CRS as an associate member is only \$10 per calendar year. The three month overlap as described above applies for associate members as well. If an associate member should decide at a later date to become a competitor, he/she may change status by merely paying the \$20 difference.

How to Join:

To join as either a full or associate member go to the CRS website and fill out the online membership application. You can then pay either by PayPal or by check. If you have any questions about membership you can contact the Membership Officer by email or phone.

CRS Rally Championship

Rally Championship Classes:

The five CRS classes will be recognized at all rally events (CRS Open 4wd, CRS-5, CRS-2, CRS Open Lite and Performance Stock). Issues related to vehicle eligibility for CRS Open 4wd, CRS Open Lite, CRS-5 and CRS-2 classes will be addressed via the sanctioning body process for the event in question. The CCO is responsible for the determination of vehicle eligibility for the Performance Stock Class. The CCO will furnish a list of qualified Performance Stock Class vehicles to the organizer prior to the start. Some rally events may include two SxS (Side by Side) UTV classes (SxS Prod and SxS Prod Turbo). To be eligible for CRS points, SxS teams will need to have both a driver and a co-driver in the vehicle.

Coef. 1 Rally Co-Driver Requirements:

To avoid confusion relating to co-driver requirements, any Coef. 1 event advertised as a Rallysprint that is included in the Rally (not Rallysprint) Championship which will require co-drivers, must so state in the event announcement. If there is no such statement (“CO-DRIVERS REQUIRED”), co-drivers’ points will not be awarded in the Rally Championship, regardless of what happens at the event.

Points, event weighting, dropping events and ties:

The Rally Championship will use the systems for awarding points, event weighting, dropping events and resolving ties described in “Common Championship Info”.

CRS Rallycross Championship

Rallycross events are those events which do not have route instructions, do not require a co-driver, and do not require a roll cage. Any year that there are four or more rallycross events on the calendar at the beginning of the year, there will be a CRS Rallycross Championship for that year.

Rallycross Calendar:

The rallycross organizers will be limited to a maximum of three events per venue that will be included in the championship. The Rallycross Liaison will be the single point of contact for establishing and revising the championship calendar, which will be maintained on the CRS website.

An event may be added provided that 1) the organizer provides at least six weeks’ lead time and 2) the organizer has previously completed a successful event at that venue. The event may be listed as non-points on the website in the case of insufficient lead time.

In the case of a date change, the organizer must provide notice at least three weeks in advance, or the event will lose its status as a championship event.

In the case of possible cancellation or postponement due to unforeseen circumstances such as poor course conditions, the organizer must give notice at least ten days before the event date. An advisory will then be posted on the CRS website. The organizer will follow with a final decision at least two days from the event. This will be posted on the CRS website. Subsequent rescheduling on the championship calendar will allow at least three weeks lead time.

Two CRS RX events on the same day or weekend, that are more than 300 driving miles apart, can both be on the CRS RX calendar, however competitors can only count CRS points from one or the other venue for that weekend.

Rallycross Points:

The Rallycross Championship will use the systems for awarding points, counting events, and resolving ties described in “Common Championship Info” (page 24). There will be no organizer points awarded because it is possible for an organizer to compete in his/her own event if desired. To be eligible for a year-end award a competitor must have been a CRS member and started at least two events. If two or more CRS drivers compete in a given CRS Rallycross class, CRS year-end trophies will be awarded. For purposes of computing CRS Rallycross Championship points all runs will be counted. If a rallycross organizer should tabulate results differently the Rallycross points keeper will retabulate the results as necessary. The CRS Rallycross Championship will be limited to a maximum of three events per venue.

Rallycross Classes:

Rallycross Championship points will be awarded in Stock 2wd, Stock 4wd, Prep 2wd, Mod 2wd, Prep 4wd, Mod 4wd and Electric/Hybrid classes. Two-wheel drive cars are not eligible to run in any four-wheel drive class. There is no price limit for any of the Rallycross classes. For CRS Rallycross Championship points, competitors will only be allowed to accrue points in one class per event (to be declared by the competitor before the event).

Stock 2wd (S2) & Stock 4wd (S4):

The CRS Stock Classes (2wd & 4wd) are the same as the SCCA Stock Classes except that both SCCA Stock Front Wheel Drive and SCCA Stock Rear Wheel Drive will be included in CRS Stock 2wd. See section 6.2.C of the SCCA RallyCross rules for details. The Stock Classes allow competitors to use a cat back exhaust, and aftermarket air filter elements, brake pads, clutch disc, wheels (stock diameter and width), shocks, front sway bar, lights, roll cage, skid plate and latches. In addition any DOT tires are allowed as long as they don't say “For competition only” or “Not for street use”. Rally tires and studs are not allowed.

Prep 2wd, Mod 2wd, Prep 4wd & Mod 4wd:

These classes are based on the corresponding SCCA RX classes, except that the 2wd classes will not make a distinction between front wheel drive and rear wheel drive. That is to say SCCA PR and PF will both be tabulated in CRS Prep 2wd and likewise for the SCCA Modified 2wd classes.

Common Championship Information

Claims: Any claims will be handled per the competition rules under which the event runs.

Event Points:

CRS points will be awarded to all CRS members, based solely on the event's published results. For championship purposes points will be awarded based on the CRS driver's or co-driver's finishing position in his/her class relative to other CRS competitors in the class. For instance, since non-CRS members will not receive points, the top finishing CRS member in a class will receive winning points regardless of any non-CRS competitors who finished ahead of him/her.

The organizers of the event will have 400 points to distribute amongst themselves, with no organizer getting more than 100 points (prior to weighting). No competitor can receive more than a total of 500 organizer's points in a given year. Organizer points will be assigned at the time the CRS standings are first tabulated for that event. Organizers can not get points as a competitor at their own event. Organizers that are not eligible for year end awards (because they have not yet competed in that class during that year), will be identified in the standings. Once the season is complete, any organizers who have not competed in the class they received organizer points in will be deleted from the final standings.

Place	Points	Place	Points	Place	Points
1 st	100	6 th	50	11 th	25
2 nd	88	7 th	43	12 th	23
3 rd	77	8 th	37	13 th	22
4 th	67	9 th	32	14 th and on	21
5 th	58	10 th	28	DNF	10

Event Weighting:

To properly reward the competitors who do well on the longer, more demanding events, these events will receive heavier weighting. For example, 1st in class in a double points event awards 200 points, in a triple points event 300 points. For purposes of determining event weighting, "fast stage time" will refer to the expected total of all stage times for the fastest car. Events with 10 to 30 stage miles and less than 30 minutes of fast stage time will be single points events. Events with 60 or more stage miles or 55 minutes of fast stage time will be triple points events. Those in between will be double points events. For purposes of determining "stage miles" the distance from the Start control to the Stop control will be used. For longer events, the event organizer will be free to choose which portions of the overall event will be counted as separate CRS events.

Totaling Points:

Since it is desirable to allow competitors to drop their worst events, the following system for dropping events will be used. Rally Championship points will be finalized 30 days after the standings are published on the web site (contact the CRS Secretary for changes during this period).

total events in series	count best	total events in series	count best	Total events in series	count best
1	1	6, 7	4	12,13	7
2, 3	2	8, 9	5	14,15	8
4, 5	3	10,11	6		

Tie Breaking:

In the event of a tie at an event, all competitors tied for a position will be given the points for the tied position. The next placing competitor will be awarded points appropriate for the number of places below the tie. Example: A three-way tie for second will give all the tied teams 2nd place points (88), and the next placing team will get 5th place points (58).

In the event of a tie for a year-end ranking in any CRS championship the tie will be broken by comparing the total points accumulated at events where both competitors finished in the class in question. All events finished will be counted (no events will be dropped). For championships containing coefficient levels, this will be applied to triple points events. If this does not resolve the tie, the same method will be applied to the double points events. If a tie still exists, the same method will be applied to the single points events. If the above method fails, the tie will remain.

Year End Awards

Class Awards:

There will be year-end awards (e.g., trophies) for the top competitors in each of the classes. Rallycross competitors must start a minimum of two events to be eligible for a year-end award. Competitors must finish at least one event to be eligible for a year end award. For all Championships, trophies will be awarded as follows:

Trophies	Competitors	Trophies	Competitors
5	15 or more	3	5 thru 9
4	10 thru 14	2	3 or 4
		1	1 or 2

Rookie of the Year:

To be a candidate a driver or co-driver must begin the year having never finished a Rally in that role. Rookie Drivers will be evaluated using a metric calculated by dividing the driver's points by the class champion's points. The Driver Rookie of the Year will be the qualifying driver who has the highest metric in his/her class. If a tie exists the driver in the class with the most drivers will be the Rookie of the Year. If a tie still exists the tie will remain. The Co-driver Rookie of the Year will go to the qualifying co-driver, accruing the most points (combining points from all classes). If there is a tie the award will go to the rookie co-driver with the most points in the most-subscribed class.

The Kenneth Zimmerman Memorial Award:

The Zimmerman Award was created to recognize those individuals who have made outstanding contributions to the sport of rallying in general and the CRS specifically. The recipient is determined by the director of the CRS. The award honors the sportsmanship and support of Dr. Kenneth Zimmerman.

The Galal Souki Memorial Award:

The Galal Souki award, selected by the CCO, was created to recognize Performance Stock Class competitors who typify the spirit of helpfulness and competitiveness that has come to be associated with the Stock Classes.

Outstanding, Tenacious, Persevering Worker:

It is the unselfish contributions of workers at all events, whether communications, blockage, or control workers, that enable our series to succeed. The recipients of this award are selected by the CRS Board of Governors in recognition of their years of service to the sport of rallying.

Rallycross Supporter of the Year:

It is the unselfish contributions of organizers and helpers at events that enable our Rallycross Championship to succeed. The recipients of this award are selected by the CRS Board of Governors in recognition of their service to the sport.

Bill Moore Memorial Award:

The Bill Moore Award was created to honor a co-driver who, like Bill, has contributed to the sport of rallying in many areas, including as a worker, organizer, or BOG member.

Appendix A

Performance Stock Class Rules

1 GENERAL INFORMATION

- 1.1 The CRS Performance Stock Class was created to provide a lower cost form of competition by using basically stock engines and low cost cars. The following rules have been made to limit the effectiveness of expensive horsepower/drivetrain modifications and should be maintained as such to keep the class a “drivers class”. By keeping certain items “stock” and other modifications limited, dominance of the class by one particular type of car will not occur. This concept is referred to as the “Spirit of the Class”, and may be applied in cases where the following rules may not apply.
- 1.2 In general, THE CARS ARE TO BE STOCK IN ALL ASPECTS EXCEPT THOSE ITEMS SPECIFICALLY MENTIONED IN THESE RULES!
 - 1.2.1 Optional equipment will be allowed only when the specific option was available on the body style as delivered in the U.S. from the factory, except as modified in section 5.2 of these rules.
 - 1.2.2 Dealer-installed options are not allowable. (Many examples of these types of modifications exist and do not fall within the “Spirit of the Class”).
- 1.3 These rules are modified every other year (2021, 2023 etc) by ballot, to be in effect for the following two years. As a result these rules may change for 2022 but not for 2023. Voting will be restricted to those competitors who ran in Performance Stock since the previous vote on Stock Class rules.

2 VEHICLE ELIGIBILITY

- 2.1 All cars and trucks competing in the Performance Stock Class will be limited to a market value (for the basic car) of not more than \$4,000. Vehicles in this class are limited to 4 cylinders or less or two rotors. The number of valves or ports must remain stock.
- 2.2 Vehicles equipped with turbochargers, superchargers or four wheel drive will not be allowed in Performance Stock Class.
- 2.3 If the value of the car is in question, it will be checked via the current wholesale Blue Book with no additions or deductions for optional equipment or mileage (or general market value). The first year that the engine-body-induction system combination was offered for sale by the manufacturer will be used to determine the value of the vehicle.

3 UPDATING and BACKDATING

- 3.1 A model is defined as a specific body style, i.e. Mitsubishi Galant or VW Golf. When within a model line a turbo or 4 wheel drive option exists, all parts unique to the turbo/4 wheel drive cars may not be used on a Performance Stock Class vehicle. Example: Brakes on a Mitsubishi Eclipse GSX may not be used on a GS.
- 3.2 Other than the restrictions of 3.1, any part may be updated or backdated freely within a given body style, provided that the part was available from the factory on a production car. Example: Parts from a 93-95 VW Golf (Golf III) may not be used on a 85-92 VW Golf. However, parts from a '91 Golf II may be used on an '85 Golf II.
- 3.3 Engine updating and backdating is allowed with the following provisions and must comply with Section 4. In addition, updating and backdating may cause the basic value of the car to change (see section 2.3).
- 3.3.1 The combination of body, engine, induction system and exhaust manifold must have been available in the U.S. from the factory.
- 3.4 Fasteners, including but not limited to nuts, bolts, studs and locking devices, nylocks, cotter pins are unrestricted as long as they remain made from a ferrous material.

4 ENGINE

- 4.1 Internal parts are free with the exception that the stock block must be retained in the stock location.
- 4.2 The stock induction system meaning the intake manifold, carburetor, or fuel injection system must be retained. However, the stock intake manifold may be modified. The stock carburetor may be rejettted. The choke mechanism may be removed or fixed open.
- 4.3 The exhaust manifold is free. The rest of the exhaust system is free, except that a 1 foot long section must have a cross sectional area less than that at the exit of the stock exhaust header. The exhaust system must include a suitable muffler.
- 4.4 The air filter and housing is free.
- 4.5 The ignition system must be of stock design with the following exception. Breaker points may be replaced by an electronic trigger that remains in the distributor and does not include an MSD style ignition system.
- 4.6 Stock ECUs can be reprogrammed (EEPROM replacement) and/or re-flashed.
- 4.7 Motor mounts are unrestricted as long as they remain in the stock location.
- 4.8 Engine oil coolers, transmission coolers, and radiators may be added or upgraded.
- 4.9 Fuel pumps and pressure regulators are unrestricted.

4.10 Four cylinder, piston type engines equipped with carburetors and fewer than 4 valves per cylinder will be allowed the following modifications:

4.10.1 The exhaust manifold is free.

4.10.2 The stock carburetor may be replaced with an aftermarket carburetor (on the stock intake manifold), provided that the total cross sectional area of the throttle body bore at the interface with the intake manifold is less than 2.85 square inches. Any carburetor with a 32mm primary bore and a 36 mm secondary bore will meet this requirement. Likewise, any carburetor with two 34 mm bores (or less) will also meet this requirement. Competitors utilizing an aftermarket carburetor will be required to provide documentation demonstrating compliance with this requirement to the CCO the first time the car is entered in competition.

5 DRIVETRAIN

5.1 Clutch and flywheel are free.

5.2 The transmission shall be stock for the body style. Ratios available in any year of the same body style may be used.

5.3 Any differential ratio may be used. The differential itself may be open, welded, locked, or limited slip.

5.4 Brake lines may be rerouted, and rubber hoses may be replaced with Aeroquip-type material.

5.5 The rear axle assembly, meaning the housing, differential and axles is free providing: the rear axle assembly and brakes are produced by the same manufacturer, mount in the stock location, and no suspension components are altered. Example: a '68-'73 Datsun 510 equipped with a R160 rear differential may use the larger R180 differential as long as it mounts in the stock location and no suspension components are altered.

6 SUSPENSION

6.1 Strengthening of stock parts and mounting points is allowed, however modification of the original part in the process is not allowed. As an example, a suspension arm may have additional material welded onto it, but it may not be lengthened or shortened in the process. Wheel mounting bolts may be changed to wheel mounting studs.

6.2 Limit straps may be added.

6.3 Springs and shock absorbers are free in the stock location.

6.4 Adjustable competition struts in the stock mounting location may be used. The spring perch height and diameter may differ from the stock dimensions.

6.5 Sway bar size is free in the stock location, or may be removed.

- 6.6 Strut mounting holes may be slotted and/or offset bushings may be used to modify camber. Control arms may NOT be modified (except reinforcing).
- 6.7 Suspension bushing material is free in the stock location.
- 6.8 Brake pad and shoe materials are free, using the stock caliper or drum assembly as equipped by the manufacturer. Modification or removal of brake backing plates is allowed.
- 6.9 Flexible brake lines are free.
- 6.10 Wheels and tires are free.

7 BODY-EXTERIOR

- 7.1 Under panning and structural reinforcing are allowed.
- 7.2 The stock hood latches and trunk latches may be modified or replaced. Hood vents may be added. Hood scoops are not allowed.
- 7.3 Fenders may be cut to remove a maximum of one inch from the outer edge around the wheel well to allow for tire clearance. Fender flares may be added over the stock fenders.
- 7.4 Gas tanks are free as long as they meet safety requirements. Fuel lines may be rerouted and rubber hoses may be replaced with Aeroquip-type material.
- 7.5 Electrics are free (alternator size, battery location, lights, etc.).
- 7.6 The material, construction and mounting method of bumpers are free (both front and rear bumpers are required by state law).
- 7.7 Roof vents are allowed.

8 BODY-INTERIOR

- 8.1 Door panel upholstery material may be substituted or modified for clearance of roll cage bar door bars. Sheet aluminum or carbon fiber are not acceptable replacements.
- 8.2 Impact foam may be added into the front doors. Removal of any door material is not allowed.
- 8.3 The steering wheel is free.
- 8.4 The front seats are free.
- 8.5 The following items may be removed: center console, rear seat, rear deck cover, headliner, pillar trim, carpets, associated padding, sound deadening material, radio, speakers and air conditioning. Heater must remain operational through stock plumbing.
- 8.6 The dashboard may be modified to accommodate safety and rally equipment only.

9 ELIGIBILITY

- 9.1 Prior to each CRS Rally, all competitors in the Performance Stock class are required to present their vehicles for inspection. The inspection may be a group or individual activity as dictated by the Class Compliance Officer (CCO).
- 9.1.1 A group class inspection will be supervised by the CCO. Questions of class compliance will be handled on the spot by vote of the class competitors present and the CCO. A simple majority will carry.
- 9.1.2 An individual inspection may be suggested by the CCO in which each competitor is personally responsible for the inspection of all cars in the class. Similarly, each competitor's car must be available during the prescribed inspection time frame. Such inspections will require the competitors to fill out and/or sign a form indicating that they accept the legality of all cars competing in the class. This form will also allow the questioning of any item on any car. Inquiries will be investigated by the CCO. Any discrepancies to the rules will be voted on by the competitors as overseen by the CCO. All inquiries must be submitted by the deadline, and all inquiries should be processed prior to the start of the rally.
- 9.2 The CCO is responsible for coordinating the Performance Stock Class tech inspection.
- 9.3 The burden of proof of eligibility is on the competitor. A shop manual, presented by the competitor, will be used during inquiries. Lack of shop manual will result in forfeiture of inquiry.
- 9.4 Competitors found to be in violation of the above rules will be placed in CRS-2 or CRS-5 for CRS points purposes.
- 9.5 If a competitor wishes to file a claim concerning rule 9.1 above, he/she should contact the CCO. The CCO will form a claims committee including himself/herself and two other people who are not competing in the class at that event.
- 9.6 Competitors who miss the mandatory Stock Class meeting but still desire to participate in Performance Stock must contact all competitors in the desired class and secure their signatures as acknowledgment of their acceptance of this competitor and their vehicle as eligible for competition. The CCO will have a form available for this purpose and completed forms must be returned prior to the first vehicle leaving the first MTC or start.

Appendix B Open 4WD, Open Lite, CRS-5 & CRS-2 Class Rules

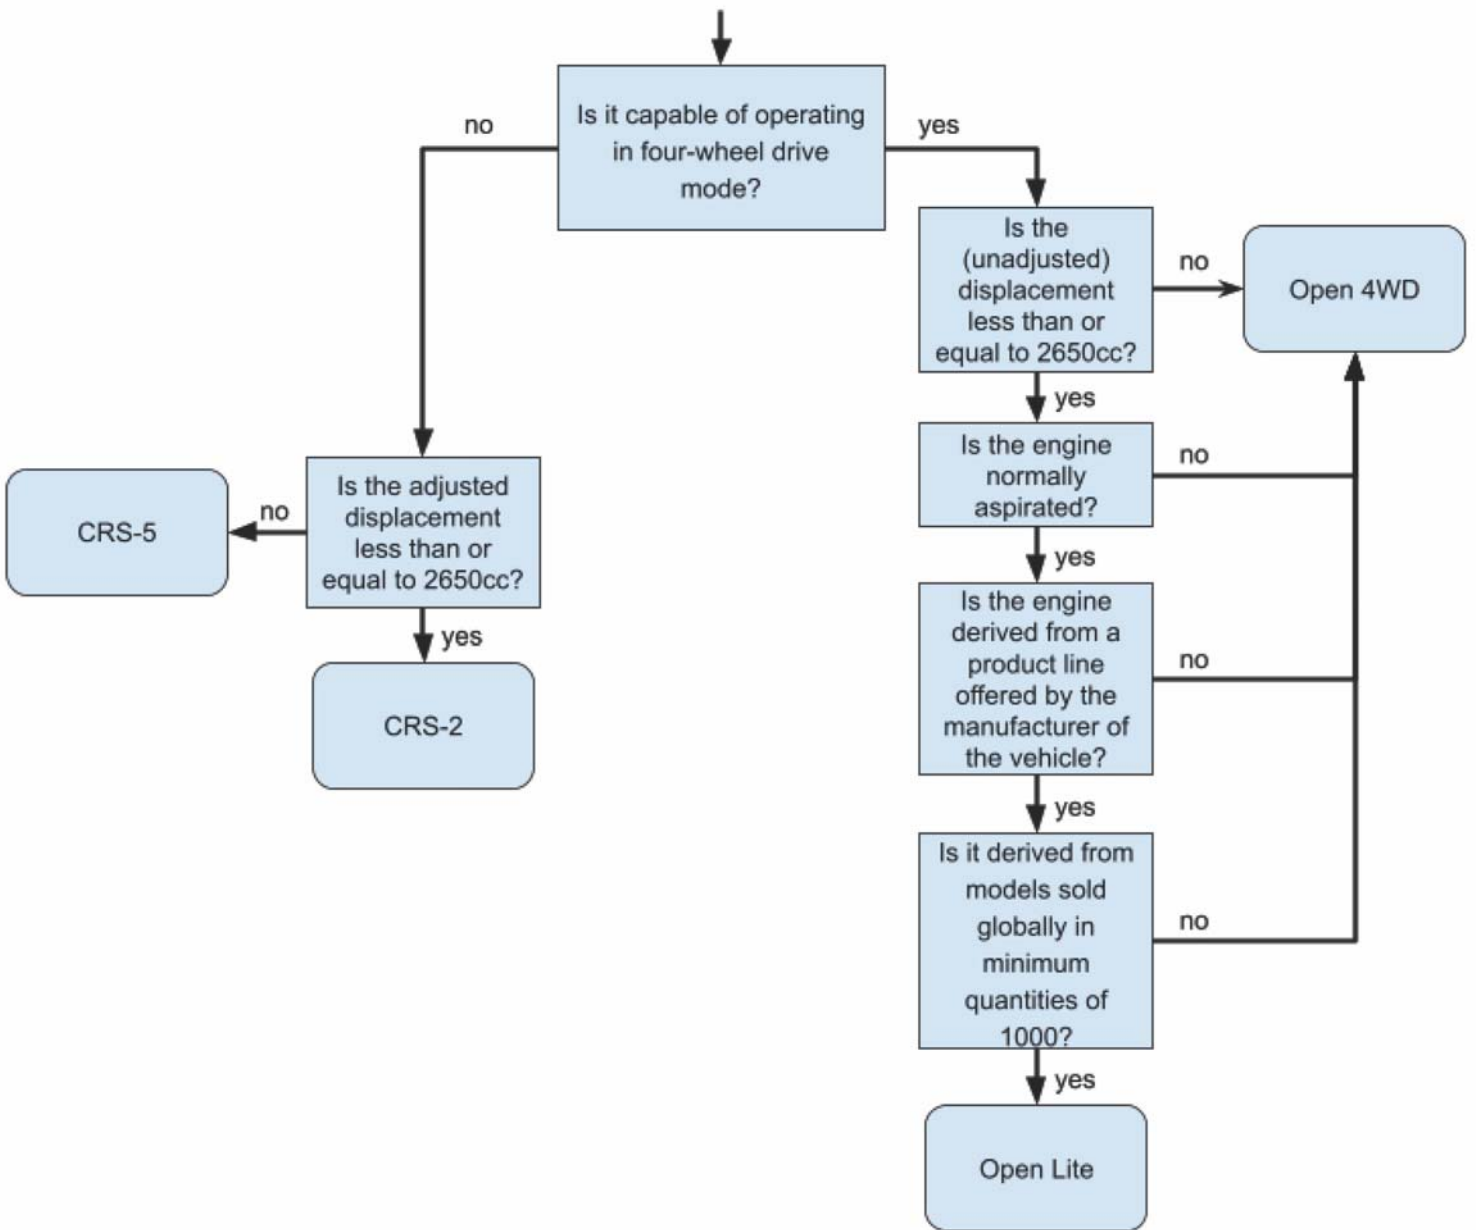

Open class cars are divided into four classes. Vehicles that are built to be capable of operating in four-wheel drive mode will be placed in Open Lite or Open 4WD class and cannot compete in CRS-2 or CRS-5. Two-wheel drive cars that were NOT designed to operate in four-wheel drive will be placed in either CRS-2 or CRS-5 and cannot compete in Open Lite or Open 4WD.

For four-wheel drive vehicles, Open Lite vehicles must be normally-aspirated, derived from models sold globally in minimum quantities of 1000, and have a maximum (unadjusted) displacement of 2650cc. The engine is unrestricted, but must be derived from a product line offered by the manufacturer of the vehicle. Four-wheel drive vehicles that do not meet these criteria will be placed in Open 4WD.

For two-wheel drive vehicles, those with an adjusted displacement less than or equal to 2650cc will be placed in CRS-2 while those above 2650cc will be placed in CRS-5.

The table of adjustment multipliers below will be used to determine a two-wheel drive vehicle's adjusted displacement. All factors that apply to a given vehicle will be used. For example, a front wheel drive car with a 2.0L, 4-valve engine with variable cam timing would have a total multiplier of 1.32 (based on $1.2 * 1.1$), producing an adjusted displacement of 2640cc.

Characteristic	Multiplier	Characteristic	Multiplier
Rotary engines	1.8	Variable cam timing	1.1
Forced induction	1.6	Rear wheel drive	0.9
4 valves per cylinder	1.2	Diesel engines	0.8
3 valves per cylinder	1.1	Pushrod engines	0.8

Appendix C CRS SxS Class Rules

CRS SxS (Side by Side) will recognize 2 classes for the CRS Championship. Normally aspirated production SxS vehicles will run in the SxS Production Class (SxS P). Turbocharged Production SxS vehicles will run in the SxS Production Turbo Class (SxS PT). Any CRS Rally that includes CRS SxS classes is eligible for inclusion in the CRS SxS Championship. Any year that there are 3 or more CRS SxS events on the calendar at the beginning of the year, there will be a CRS SxS Championship. Competitors must be CRS members prior to the event to accrue CRS SxS Championship points. The CRS SxS Championship will use the systems for awarding points, weighting, dropping events and resolving ties described in Common Championship Info.

Appendix D Previous Rally Champions

OPEN CLASS

Year	Drivers	Co-Drivers
1975	Hendrik Blok	Steve Ruiz
1976	Hendrik Blok	Erick Hauge
1977	Hendrik Blok	Erick Hauge
1978	Hendrik Blok	Rod Sorenson
1979	Rod Millen	Mark Howard
1980	Rod Millen	Grant Whittaker
1981	Frank Jacob	Wes Gaede
1982	Ken Smith	Dennis Sheean

Rallycross Liaison	Sanjay Singh <RallyCross@CaliforniaRallySeries.com>

Appendix J BOG Structure and Operation Rules

The CRS is governed by a Board of Governors (BOG) which consists of the organizer from each CRS event (Rallies, Rallysprints and Rallycrosses).

Membership on the BOG will begin once the event has been accepted onto the CRS calendar and continue for the remainder of the year the event occurs in.

In addition to the organizers there will be a number of other members including: the Director, Equipment Manager, Secretary/Treasurer, Membership Officer, Press Liaison, Web Master and Class Compliance Officer. The responsibilities of the officers are detailed as follows:

Director:

The Director will be elected by a vote of the CRS membership and shall be in charge of the general operations of the CRS. The Director will schedule and chair BOG meetings, and act as the official contact person for the CRS. The Director will be responsible for the acquisition of all the year-end awards (within the budget). The Director will be responsible for the year-end awards banquet, and any other social events as desired. The Director has the power to expend funds as required to accomplish these tasks and other CRS related business as deemed appropriate. The Director may delegate any of these responsibilities to other individuals if desired.

Equipment Manager:

The Equipment Manager will be responsible for the CRS rally equipment (green flags, clocks, radios, bibs, sign boards, PA system etc). The manager will order new sign boards and other equipment as necessary to support the various CRS events. The manager will furnish the desired equipment to the organizers prior to the event and collect it from the organizer after the event.

Secretary/Treasurer:

The Secretary will be responsible for recording the minutes of the BOG meetings, tabulating votes and updating the rule book as required. The Secretary will be responsible for tabulating the CRS Rally and Rallysprint standings. The Secretary will also be responsible for generating emails to all CRS members as needed. The Treasurer will be responsible for billing sponsors, dispensing funds to pay for subscriptions, decals, trophies, etc. The treasurer will also maintain a budget which will be presented to the BOG as needed.

Membership Officer (MO):

The MO will be responsible for signing up CRS members and distributing information about the CRS to interested parties. The MO will have someone available at the registration of each event to sign up new members. The MO's name, address and phone will be advertised as a contact point for new rallyists. The MO will be responsible for maintaining the membership database.

Competitor Liaison:

The Competitor Liaison will act as a point of contact for competitors who would like to make an input to the BOG. He/she will keep written records of the competitor comments and inputs from competitors. The Competitor Liaison will attend BOG meetings. To be eligible for this position the person must have been a competitor on at least one CRS event a year for the three previous years, and plan on continued CRS involvement.

Rallycross Liaison:

The Rallycross Liaison will be the competitor contact for those seeking information on the CRS Rallycross Championship. The Rallycross Liaison will be responsible for:

- Making calendar decisions throughout the year and informing the BOG & webmaster of changes.
- Administering class arbitration at events.
- Determining the appropriate CRS classes for all CRS members at events that do not support CRS classes.
- Tabulating the Rallycross Championship Standings and furnishing those standings to the Webmaster.
- Obtaining digital photos for year end awards.

Webmaster:

The Webmaster will maintain the CRS website, keeping it current with news, series standings, photos etc.

Press Liaison:

The Press Liaison will actively seek to promote the CRS and will be the single point of contact for the press. The Press Liaison will distribute the writing assignments for articles about events among those interested. These articles will be targeted for publication on the CRS Web Site and periodicals that cover CRS events. In addition the Press Liaison will issue quarterly Press Releases to various periodicals with Rally and RX calendars and championship standings. Nominations for Press Liaison will be solicited from the CRS membership and the BOG will select from those nominated.

Class Compliance Officer :

The CCO (Class Compliance Officer) will be responsible for the administration of the CRS Performance Stock Class as well as determining eligibility for the other CRS classes. The CCO will be the contact person for questions and rules. The CCO will be responsible for the policing of the classes at events, and will furnish the organizers with a list of approved P-Stock competitors prior to the drivers' meeting. The CCO will survey the Stock Classes competitors to consider amendments to the rules. The CCO will also administrate the voting on proposed changes to the rules.

BOG Operation:

The BOG shall make decisions on Calendar approval, amendments to these rules, amounts of fees, and any other items deemed appropriate by the Director. The BOG shall also be responsible for appointing people to fill the jobs of Equipment Manager, Secretary, Press Liaison, Rally Membership Officer, Treasurer, Rallycross Liaison, Webmaster and Sponsor Liaison. The BOG email Group will also serve as an informal forum for the organizers to discuss items related to the organization of rallies. For voting purposes each Rally event shall have the same number of votes as the event's weighting factor (1, 2 or 3), with a limit of 3 BOG votes per competitive weekend. Rallysprint organizers will have one vote for each event organized. Rallycross organizers will have one vote for each CRS points event organized. Any officers that are not organizers will have one BOG vote. Each event will have a single point of contact for the purposes of BOG email polls.

The single point of contact for each event will designate who from his event shall be on the BOG mailing list and who will have voting privileges at meetings. If an event is dropped from the calendar, for whatever reason, that event's organizer will lose his BOG Voting privileges for that event at that point. A quorum of at least 50% of the possible votes must be present to make any decisions on rules.

BOG Email Voting

In order to complete an email BOG vote, either a majority of the possible votes must be cast or a minimum of 3 working days (not Sat, Sun or holidays) must have expired.

BOG Meeting Agenda

The preliminary Agenda for the year end BOG meeting shall be distributed to the BOG members at least 4 weeks prior to the meeting.

BOG Meeting Proxies

To establish a proxy for the yearly BOG meeting, the organizer or officer will be required to notify either the director or the secretary prior to the meeting. Any one individual will be limited to holding only one other BOG member's proxy.

Championship Related BOG voting

While all BOG members are welcome to participate in the discussion of any issue, for voting purposes the BOG will partition issues into four categories: "Rally Only", "Rallycross Only" and "Common". The Rally Only and Rallycross Only categories will be for those issues that only relate to that specific championship (e.g., CRS-2 rules would only relate to Rally). Issues that have crossover interest (such as budget and membership items) will be handled as "Common". The table below details which members of the BOG will vote on which issues.

BOG Position	Rally Only	Rallycross Only	Common
Director, Webmaster, Secretary/Treasurer	X	X	X
Sponsor Liaison, Press Liaison	X	X	X
Competitor Liaison & Class Compliance Officer	X	X	X
Equipment Manager, Membership Officer	X		X
Rally Organizers	X		X
Rallycross Liaison, Rallycross Organizers		X	X

Rally Event Review

The CRS BOG shall review an existing CRS Rally event for inclusion in the championship if:

- There is a new organizer or
- There are all new stage roads or
- Both the published stage mileage and the winning time are less than their respective thresholds..

Downgrading Event Weighting

If an event, for whatever reason, is unable to execute the level of event that was initially planned, the organizer can request the BOG to downgrade the weighting as long as there is at least 8 weeks before the event.

Expenditure of Funds

Expenditures of less than \$100 can be approved by either the Director or the Treasurer. Expenditures of more than \$100 need the approval of the Common BOG.
