The Rally and RallyX School Plus an all new RallyMoto™ School

Don't miss this all day event that covers all the elements of Rally, RallyMoto™, and RallyX (rally cross) competition. A heavy emphasis will be placed on in the seat time for drivers/riders and co-drivers on practice courses designed to give them the "feel" of real competition. Experienced rally drivers will ride along with you to show you how to use the practice area. Two or more students may share one car. A helmet with a Snell 90 or newer sticker is required for the driver's practice. A few loaner helmets are available. No helmets are required for the co-driver practice sessions.

This is a great opportunity to show a new co-driver, service crew member, or spouse what rally is all about. There is no one involved in the sport that will not benefit from this workshop. 2010 marks the the thirteenth presentation of the school.

Your entry includes a "working sack lunch" Saturday afternoon (the learning continues over the munching) and Mexican buffet Saturday night. You do not need to bring any vehicle to take part in the classroom part of the course. Drivers and riders must provide their own vehicles. You may use any reasonable hard-top street automobile, with a minimum of stock over the shoulder seat belts, for the drivers practice sessions as they are on the same level smooth dirt parking lot as the Sunday RallyX. RallyMoto™ riders must wear State approved helmets and both bike and rider must be licensed to ride on the street.
